## SKILLS

- Programming
- Full stack web development
- .Net - blazor
- Node.js – Nest.js
- React - Next.js
- Flutter android development
- Python - java - js - c - c#
- SQL/NO-SQL databases
- Microsoft Office

## LANGUAGES

Arabic

Native or Bilingual Proficiency

English

Professional Working Proficiency

## INTERESTS

- AI
- Robotics
- Gaming and game development

## WORK EXPERIENCE

### Junior Full Stack Developer

Nweave

10/2024 – Present

Alexandria, Egypt

Web development company

- Contributed to multiple projects across various stacks including NestJS, Laravel, WordPress, Webflow, React, .NET, and Blazor.
- Initially worked on a NestJS backend project, where I learned the codebase, and later implemented advanced filtering endpoints.
- Completed a short Laravel and PostgreSQL API training project.
- Designed multiple websites locally using Webflow after prototyping them in Figma and converting components using plugins.
- Built a WordPress website using Elementor and developed a custom theme using native PHP, HTML, CSS, and JavaScript.
- Contributed to two medical projects:
  - One using React frontend and .NET backend, structured with Vite to run on a single port.
  - Another developed in Blazor (.NET) using the WebAssembly & Server auto template and MudBlazor for UI components.

### Web development trainee

RMZ Tech

07/2021 - 08/2021

Alexandria, Egypt

Web development company

- Attended practical training about web development and database handling.
- Learned to use Laravel framework.
- Took an introduction for UI/UX design.
